playsight

PlaySight connects players and SmartCourts around the world to one central platform

Seamlessly integrates real life on court activity an interactive social community

# Tenis je predzadnji v športu po uporabi analitike (vir: MIT)

-današnje metode treninga se zanašajo na tradicionalno tehniko- opazovanje igralca in povratno vizualno korekcijo

-velika večina igralcev nikoli ni prejela kakršnekoli video ali statistične povratne informacije

-večina teniških klubov nima video opreme na njihovih terenih

-tenis potrebuje več razburljivosti in zabave
